

dormakaba is pleased to announce our new Concealed Electric hinge option. Each hinge is furnished with twelve (12) wire 22 AWG Super-Flex Ribbon for increased durability.

All of our Concealed Electric Hinges include:

- Tamper-Resistant Access Panels supplied with #6 Spanner Flat Head Screws for added security.
- Available on Full Mortise models
- Lead time for most orders is 3 to 5 business days. For lead time on larger orders please consult factory.
- Aluminum Geared Continuous Hinges with electrical modifications have a five year limited warranty.

Choose from our two options:

Option 1: CE-12 EA

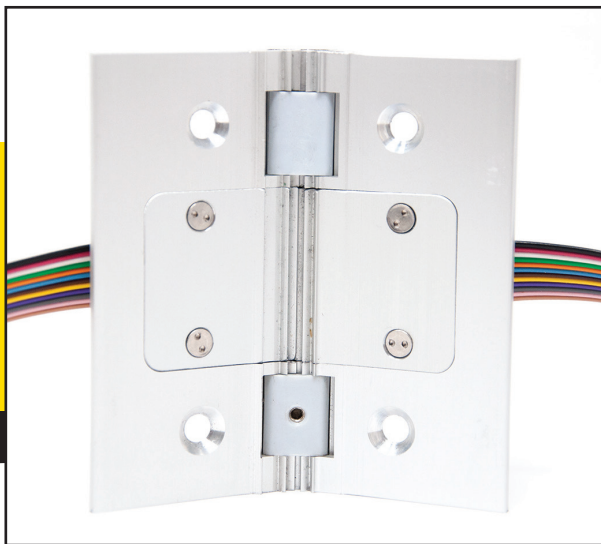

Hinge is supplied as one length with a access panel built into hinge to allow for access to through wires.

Option 2: CE-12 R

Hinge is supplied in three sections so the electrical section can be removed.

Other electrical options:

- CS - Concealed Switch
- EPT - Electronic Power Transfer (specify hand, location, manufacturer and model of EPT)
